

IRE
OIL & GAS FZE

EMBRACING CHANGE
ADVANCING INNOVATION

www.irefze.com

About IRE

IRE partners with leading manufacturers and specialises in the purchase, supply and after-sales support of products for the international oil and gas industry. Our major strength lies within our solution based and flexible approach as well as our drive to save clients' money, improve operational performance through innovation, and enhance safety. Our 30+ years' experience and extensive network within the oil and gas industry ensures that our clients challenges can be solved quickly and efficiently.

Mission

Our mission is to provide innovative products and services to the energy sector that offer unparalleled value in three key areas: HSE, Cost Control and Productivity.

Vision

To become a leader for innovation and sustainability in the energy sector.

Values

Integrity

We conduct ourselves professionally, safely and believe in fairness in all aspects of our business.

Reliability

We know there is no room for error in the industry in which we operate, and we strive to ensure the job is done right, every time.

Innovation

We think outside the box, embrace creativity and consistently seek to revolutionize our products and services.

Sustainability

We believe today's solutions must positively influence tomorrows goals.

Client Driven

We are listeners and passionately seek solutions that will positively affect our client's business.

Employees First

In the words of our founder: "We are only as good as our people".

- Hammer Union Wrenches
- Safety Flex Handles
- Hammerless Tong Die Drivers
- Safety Make Up Stands
- Tong Handle Safety Caps
- Rig Floor Traction Matting

Power

- AC Drilling Motors
- VFDs
- Oil Filtration & Conditioning
- Fuel Filtration & Conditioning
- Oil Sampling Kits

Instrumentation

- Digital e-Gauges
- Weight Indicators
- Flanged Pressure Gauges
- Torque Gauge & Tension Load Cells
- 1502 Sending Units
- 4:1 Deboosters

Our Services

IRE provides a full range of services including stocking, distribution and supply of equipment as well as workshop and specialised services. From our brand new 5000m² facility in the Jebel Ali Freezone, an industrial hub located in Dubai, we now have a license to carry out manufacturing and assembly. In addition, with an additional yard and warehouse space, we carry a lot more stock of drilling tools and equipment.

Stocking, Distribution and Supply

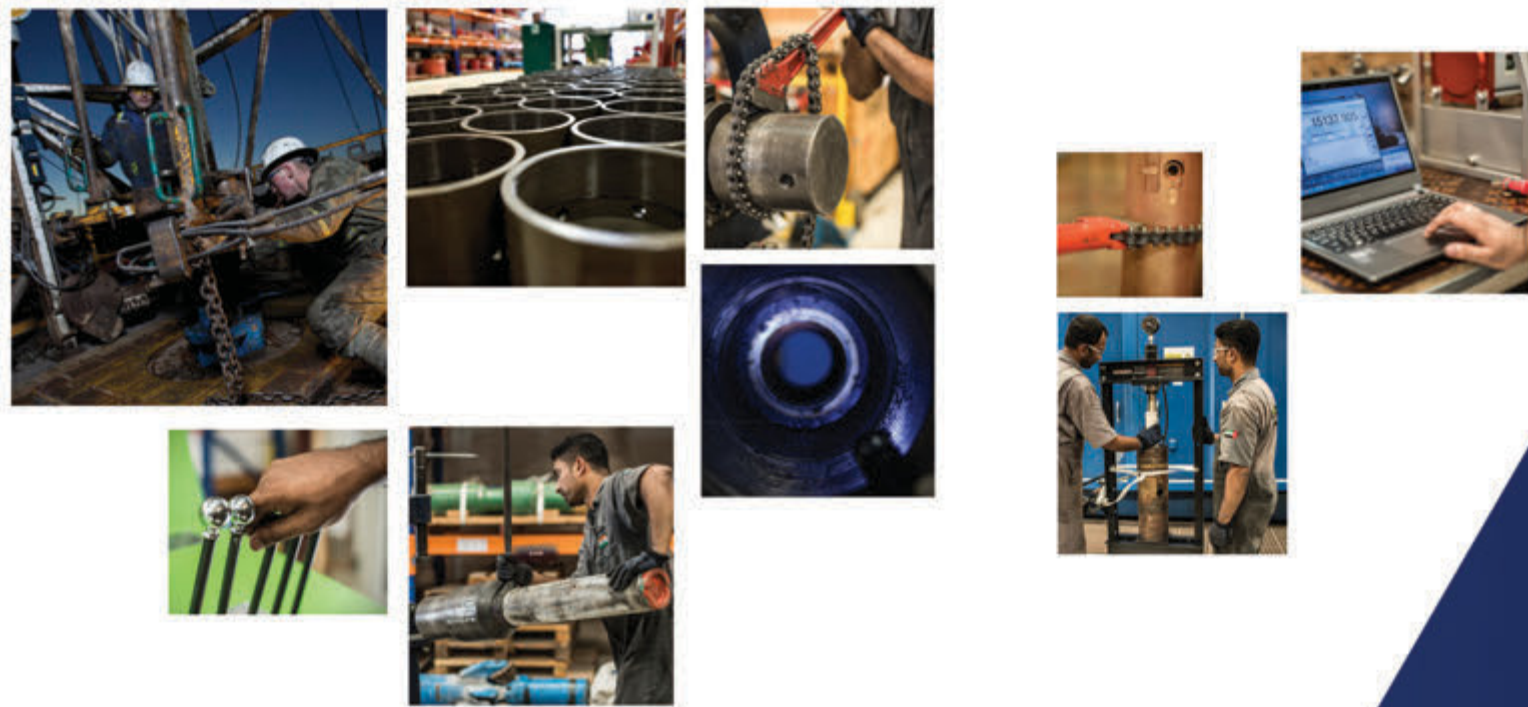

- stocking supplier for several manufacturers
- outsourcing tools and equipment
- project supplies for rig re-activation

Specialised Services

- OEM authorised repair services
- product development & customization
- mud pump upgrades & monitoring

Workshop Services

- valve servicing and repair
- make ups & break outs
- magnetic particle inspection
- pressure testing
- inspection & quality control
